- Oregon Dave Losh, State Statistician
- Alaska Sue Benz, State Statistician

Apples

Based on August 1, 2018 conditions, Idaho apple production is forecast at 54.0 million pounds, up 14 percent from last year. Production is forecast at 155 million pounds in Oregon, down 12 percent from 2017. At 63 percent of the U.S. apple production, Washington still ranks number one in apple production. Washington apple production is forecast at 7.20 billion pounds, down 4 percent from last year's production.

Grapes

Total grape production in Oregon is forecast to be 78,000 tons, up 1 percent from 2017. Washington total grape production is forecast at 455,000 tons, up 9 percent from last year. Of the 455,000 tons in Washington, 195,000 tons are forecast for juice grapes, up 3 percent from 2017. Washington wine grapes are forecast at 260,000 tons, up 14 percent from last year. Washington is the second largest grape producer in the nation at 6 percent of national production.

Peaches

Idaho peach production is forecast at 5,760 tons, up 10 percent from 2017. Washington peach production, at 13,450 tons, is up 5 percent from last year. Washington peach production is forecast as the seventh largest in the U.S.

Pears

Total Oregon pear production, forecast at 241,900 tons, is up 7 percent from last year. Oregon Other pear production is forecast at 181,000 tons, up 5 percent from 2017. Oregon Bartlett pear production is forecast at 60,900 tons, up 13 percent from last year. Total Washington pear production, at 338,000 tons, is up 7 percent from 2017. Of that total, 142,500 tons are expected to be Bartlett pears, up 14 percent from last year, and 195,500 tons are projected to be other pears, up 3 percent from 2017.

Cranberries

Cranberry production in Oregon is forecast at 515,000 barrels, up 5 percent from 2017. Oregon ranks fourth in the nation for cranberry production. Washington cranberry production, at 168,000 barrels, is up 14 percent from last year.
